

Please join the IOPP at White Graphics and Reliable Label for a tour:

White Graphics provides packaging solutions to the retail industry. This presentation will focus on High-end digitally printed Packaging Prototypes and the role they serve in today's market space. We will look at various methodology of production of Carton, Shrink, Pouch and Display Prototypes.

Reliable Label, Inc. Specializes in flexographic Roll to Roll Label printing. Our primary markets are the Food & Beverage Industry we also have a strong background working with Cosmetics and Chemical companies. We primarily print with waterbased inks, but we also have the capability of running UV Inks when necessary for clear films and Industrial applications. We have 8 presses ranging from 4 colors to 8 colors, and can print up to a maximum size of 13" x 24".
