Rarely has IoPP Meadowlands traversed a subject of such far-reaching implication. Two experienced dietitian managers will navigate us through the adventures of third to fifth grade elementary school pupils at the supermarket. The time of preparation, with parents involved, from beginning to end promises to be an illuminating trip for our packaging attendees. This will be an excellent opportunity for us to meet firsthand with the consumer side of our food packaging.

Sidebar: a rare event certainly warrants your reservation. Contact Gordon Ellis at 212-284-2695 or gellis@estee.com. Remember this meeting will be held the third Wednesday of October (not our usual second) due to programming necessities. Don't miss it.

Protocol is as usual. We will meet at Houlihan's for dinner commencing at 6:30 pm. The presentation starts at 7:30 pm until completion. The \$40.00 fee includes dinner for members and non-members. Cash bar will be available.
