

Glass is amazing! Since 2002, we've been captivated by its energy and beauty. We love it. We've built our lives around it. Third Degree offers everyone an opportunity to discover the incredible qualities of glass in its many stages, and to have an amazing experience with it in whatever capacity they might find it.

Come join your fellow packaging professionals in exploring the artistic side of this ancient packaging material, at this very special Holiday event. The Chapter is providing a glass blowing demonstration at no additional charge to our members and guests!!!
